PEPY: A Quick Overview

PEPY Empowering Youth is a local, Cambodian-run NGO that uses sustainable, bottom-up strategies to increase (e)quality of education in Cambodia. In order to raise awareness of the importance of higher education and help students build a realistic path to their aspirations, PEPY runs the Dream Management Program in two rural high schools in Siem Reap Province. PEPY's Learning Center in Siem Reap aims to prepare university students for the reality of national and international labor markets by supporting them in areas that employers have reported to be most lacking by potential employees, notably in English, ICT, and soft skills; they also have access to music, art, creative writing, and sports classes and workshops. Lastly, PEPY provides scholarships to ambitious but financially disadvantaged university students, which include financial support, healthcare, and mentoring. In order to ensure direct community impact (on top of the role modeling that promotes awareness of the value of education), PEPY Scholarship students research, design, and implement community projects to address key issues in those areas.

PEPY is powered by an amazing network of supporters who are passionate about sustainably improving the lives of young Cambodians via education & empowerment. And YOU can be a central part of that network, and even help us expand it, by offering your individual support!
